WHAT'S BRÉBEUFHX?

BrébeufHx is the largest pre-university hackathon in Quebec, bringing together hundreds of participants from high school to CEGEP each year. Teams have 24 hours to develop a technological solution to a real issue in the community. We partner with NPOs, startups and businesses to offer challenges that have a real impact in society. Our beginners category allows those new to programming to acquire the foundations to become the next leaders in the field. This year, we are organizing the 9th edition of the event, which will take place in January 2026.

We offer multiple competition branches to let everyone, beginner or advanced, learn and reach their full potential. Participants are always surrounded by mentors and speakers who are there to help them in their projects. Do you want to expand the reach of your company to young tech leaders? BrébeufHx is the perfect occasion to share your passion for tech in a welcoming and open environment.
